Finding Articles in ABI/Inform Collection

**ABI/INFORM Collection** is a database that focuses on journals related to business including trade publications and market reports. It’s a good database for searching for articles on business topics.

To get to **ABI/INFORM Collection**, start on the [UA-PTC Libraries](http://www.uaptc.edu/library) homepage:

- Click on the **Databases** button.
- Select **ABI/INFORM Collection** from the alphabetical list of databases.

**ABI/INFORM Collection** opens to a Basic Search screen with only one search box available. You can use this box to search a single term. If you find that you get too many results, try the **Advanced Search** option above the basic search box. The **Advanced Search** screen includes three search boxes, followed by some additional search options.

To see how **ABI/INFORM Collection** works, let’s look for articles on the topics of conflict and bullying.

We’re using the **Advanced Search** so we can search for both terms together. Type **conflict** in the first box.

Type **bullying** in the second box.

Look below the search box and check the box for **Full text**.

Click the **Search** button.

The next screen displays your search results in order of relevance.

Click on the underlined title of your article to view the full text.

Use the buttons to the right of the article to download, print, or email the article to yourself.

Click the **Abstract/Details** tab to view the article abstract and complete citation information.
