**Finding Articles in EBSCO Health Source: Nursing/Academic Edition**

*EBSCO Health Source: Nursing/Academic Edition* is a database that focuses on medical disciplines with emphasis on journal coverage of nursing and allied health.

To get to *EBSCO Health Source: Nursing/Academic Edition* start on the UA-PTC Libraries homepage: [http://www.uaptc.edu/library](http://www.uaptc.edu/library).

- Click on the **Databases** button.
- Select **Health Source: Nursing/Academic Edition** from the alphabetical list.

*Health Source: Nursing/Academic Edition* opens to a Basic Search screen with a single search box.

To see how *Health Source: Nursing/Academic Edition* works, let’s look for articles on **ovarian cancer**.

Type the topic, **ovarian cancer**, in the search box. Put this term in **quotation marks** to tell the database that you want to search for the entire phrase and not just the individual words. Then click the **Search** button.

The next screen displays your search results in order of relevance. You can limit your results using the **Refine Results** menu to the left of the screen. Check **Full Text** to limit results to those citations that have a copy of the complete text. Check **Scholarly (Peer Reviewed) Journals** to limit results to articles from scholarly sources. Use **Publication Date** to limit results to articles published within a particular time frame, such as the past 5 years.

Choose an article and click on the underlined title to view the full text.

Use the links in the column to the right of the article to **download**, **print**, or **email** the article to yourself.

Click the **Detailed Record** link to view the article’s abstract and complete citation information.
