Using CultureGrams

**CultureGrams** is an online resource that offers cultural information on more than 200 countries, all U.S. states, and Canadian Provinces.

To get to **CultureGrams**, start on the **UA-PTC Libraries** homepage: [http://www.uaptc.edu/library](http://www.uaptc.edu/library).

- Click on the **Databases** button.
- Scroll down the alphabetical list and click on **CultureGrams**.

To see how **CultureGrams** works, we are going to select the **World Edition** to look for information on **Chile**.

To enter **CultureGrams World Edition**, click on the **Explore** button.

The next screen will show you **The World**. Select your continent from the list, in this case, **South America**.

The screen will display a list of countries. Select your chosen country from the list, in this example, **Chile**.

The next screen displays the information for the country. Scroll down the menu on the left side of the screen to select specific topics, among the many options are **Greetings**, **Eating**, and the **Economy**.
